Corona-extra

Corona and young people / students

Students, requested Stoop funds in support of their studies, The rules have become stricter for some time: students in the Netherlands are required to loan the maximum amount from the government and must submit a DUO statement with their application, their savings may not exceed a certain threshold, and income and expenses are looked into. Another criterion is the student side job. The board believes that a side job provides additional income to be able to sustain yourself financially and prepares for working life.

However, during the "corona pandemic" at the end of 2020 it turns out that student jobs are hard to come by. The catering industry has come to a standstill, shops are closed and most possibilities to earn some extra money have disappeared.

As this is beyond the student's control, the Board has decided to create a one-off 'corona-extra' of € 250, - to the young descendants of the Stoopfonds. The Board realizes that not all young family members are students, others are also affected by the measures, and therefore this 'corona-extra' is for all young descendants.

There are only two conditions you have to meet to receive your 'corona-extra': you were born between 1995 and 2002 (i.e. from January 1, 1995 up to December 31, 2002) and you must apply for this 'corona-extra'.

The Board hopes this one-off extra will give you some financial relief in these difficult circumstances. Together with you we hope for better times ahead, and we look forward to meeting you at the next Stoopfonds party in 2023 (18+).

On behalf of the Board,
Carel van Lynden, Chairman of the Stoopfonds
